Denmark has 444 islands, but only 76 of them are inhabited.

This means that there are plenty of opportunities for you to go on an island getaway! Some of our favourite and most popular island retreats are the islands of Ærø, Rømø, Bornholm, and Læsø. Bornholm and Samsø were voted as the EU's most sustainable islands back in 2020, so if you like green living, look no further.
